AZULEJO ESPAÑOL

La inteligencia emocional al servicio de un proyecto que la mayoría no valora hoy.

Nosotros sí lo valoramos, es un proyecto familiar integrador en el que trabajamos.

Nuestros principales objetivos:

- Integración de recursos humanos con formación como valor empresarial primario.
- Multiplicar la productividad, han cambiado muchos conceptos.
- Imaginar contextos de diseño inéditos en los que ahora trabajamos.
- Vocación internacional.

Todo ello siendo conscientes que nuestro futuro aún no se ha predeterminado, gracias a nuestra capacidad de resistencia inteligente.

Emotional intelligence working on project that most of people don't value it.

We do value it, an integrated familiar project in which we work.

Our main targets:

- Integration of trained human resources as primary enterprise value.
- To multiply productivity, concepts has changed it.
- To imagine inedited design concepts in which we work.
- International vocation.

All this being conscious that our future it's not predetermined yet, thanks to our intelligence resistance capacities.
